EESSI pilot 2021.12

Nov 15th 2021

High-level overview of usual steps

- Implement new features, solve open issues
- Build compatibility layers with [Ansible Playbook](#)
- Build software for all targets CPUs with [build script](#)
- Update and deploy [init scripts](#)
- Mark as the "latest" version

(New) Features / tasks

- Collected a list of wishes and tasks for the next pilot
  - GitHub Project: https://github.com/orgs/EESSI/projects/7/views/1
  - Anything missing?
- Pick the ones that we find (most) important, and prioritize them
- Assign tasks to people who want to help

Timeline

- Dec 2021? January 2022?
- Name: 2021.12, 2022.01

- Organize smaller follow-up meetings?
